Aggregate Overview Footnotes

¹ Net Investment is the total value of contributions and withdrawals (excluding unsupervised assets) made by the client since the inception date of the account. This includes Misc. Expenses and Accrued Income received from the custodian.

² Time Weighted Rate of Return (TWRR) is calculated net of all fees. Time Weighted Rate of Return (TWRR) is used to compare your portfolio returns versus benchmark indices (such as S&P 500).

³ A benchmark is an unmanaged index, and its performance does not include any advisory fees, transaction costs or other charges that may be incurred in connection with your investments and/or managed accounts listed. Any benchmark whose return is shown for comparison purposes may include different holdings, a different number of holdings, and a different degree of investment in individual securities, industries or economic sectors than the investments and/or investment accounts to which it is compared. Investors cannot invest directly into a benchmark or index. All portfolio returns for all periods are expressed in USD. All benchmark(s) returns reflect the same currency as the portfolio returns presented. Yearly performance values (e.g. Trailing 3 Years) shown are from the specified period up to Nov 30, 2020. The benchmark(s) for the account(s) 44034236, 37943656, 26071320, 52388308, 30488589, 93904116 are customized benchmarks that segments specific blended benchmarks into different time periods (as noted herein) to reflect the corresponding changes in your portfolio's investment strategy over time. The intent of these segmented benchmarks is to seek to provide a more accurate comparison to which returns can be evaluated effectively. This report has been generated on the platform powered by Envestnet (the "Platform Manager"). If your report contains data from periods prior to the time your account was set up on the platform, that data was supplied by third-party sources and has not been independently verified by Platform Manager.

Any benchmark whose return is shown for comparison purposes may include different holdings, a different number of holdings, and a different degree of investment in individual securities, industries or economic sectors than the investments and/or investment accounts to which it is compared. Investors cannot invest directly into a benchmark or index. All portfolio returns for all periods are expressed in USD. All benchmark(s) returns reflect the same currency as the portfolio returns presented. Blended benchmarks are defaulted to rebalance monthly which means that Envestnet will asset weigh the benchmark component returns on a monthly basis using the beginning of the month weights. A daily rebalance option is also offered however may not be available in all cases due to data limitations from providers.

⁴ Time Weighted Rate of Return (TWRR) is calculated net of all fees. Time Weighted Rate of Return (TWRR) is used to compare your portfolio returns versus benchmark indices (such as S&P 500).

³ These figures compare the Time Weighted Rate of Return (TWRR) of your account with a benchmark index. "Mgr Bchmk" refers to a blend composed of 38% Russell 1000 TR, 26% Bloomberg Barclays Capital Intermediate U.S. Government/Credit TR, 14% BNYM Dev Mkt Classic ADR Ind, 8% Bloomberg Barclays Capital Gbl Agg Ex USD TR Hdg USD, 4% BNYM Emg Mkt Classic ADR Ind, 4% S&P Small Cap 600 TR, 4% Bloomberg Barclays Capital 1-3 Govt/Credit Bond TR, 2% BOFAML 3-Month U.S. T-Bill TR (10/19/2018 to date). "Mgr Bchmk" is a customized benchmark that segments specific blended benchmarks into different time periods (as noted herein) to reflect the corresponding changes in your portfolio's investment strategy over time. The intent of these segmented benchmarks is to seek to provide a more accurate comparison to which returns can be evaluated effectively. A benchmark is an unmanaged index, and its performance does not include any advisory fees, transaction costs or other charges that may be incurred in connection with your investments and/or managed accounts listed. Any benchmark whose return is shown for comparison purposes may include different holdings, a different number of holdings, and a different degree of investment in individual securities, industries or economic sectors than the investments and/or investment accounts to which it is compared. Investors cannot invest directly into a benchmark or index. All portfolio returns for all periods are expressed in USD. All benchmark(s) returns reflect the same currency as the portfolio returns presented. Blended benchmarks are defaulted to rebalance monthly which means that Envestnet will asset weigh the benchmark component returns on a monthly basis using the beginning of the month weights. A daily rebalance option is also offered however may not be available in all cases due to data limitations from providers.

⁴ Time Weighted Rate of Return (TWRR) is calculated net of all fees. Time Weighted Rate of Return (TWRR) is used to compare your portfolio returns versus benchmark indices (such as S&P 500).

⁵ Returns for greater than one year are annualized.
